

The churches in New Zealand were raised up through the publications of the Living Stream Ministry and contact with the churches in Asia and the United States of America. In 1971 Witness Lee visited and strengthened the new churches. From that time the saints in the Lord's recovery have endeavored to attend Brother Lee's trainings and conferences. It became our custom to follow the ministry of our brother and fellowship with the churches in the Lord's recovery. It is commonly understood that the churches in New Zealand were raised up by the ministry of Witness Lee.

During Brother Lee's sickness, in fellowship by letter to the all the churches he said, "The Lord has shown me that He has prepared many brothers who will serve as fellow slaves with me in a blended way." Since our brother's passing away we have continued our practice of attending the trainings and conferences and blending with the churches.

Our strong realization is there has been no change in tone, taste or impact in the ministry but rather a confirmation and going on.

The churches in New Zealand are one with the churches in the Lord's recovery, taking the ministry as our lead and accepting the current leading as the continuation of the Lord's recovery.

By virtue of our oneness with the lead today in the ministry, we support the quarantining of Titus Chu and those who promote and disseminate his divisive teachings, practices and view. This quarantining is necessary to protect the purity and continuity of the Lord's recovery.
